Experience

2019 - PRESENT

Freelance Graphic Designer + Web Developer
Kari Braden Design, LLC, Greenville SC

- I work closely with clients during every phase of a project: I create briefs, project manage, organize, conceptualize, design, code, and present.
- I work along side business owners, PR agencies, in house marketing teams, and other creatives.
- I'm incredibly organized, timely, task oriented, and efficient.
- Projects include, branding + logos, print + digital design, and websites from conception to launch, for clients across a range of industries.

2010 - 2019

Art Director + Graphic Designer + Web Developer
GT Creative, Milwaukee WI

- As an integral part of the team, I'm involved with every aspect of a project. I create project briefs, project manage, oversee others involved, organize, conceptualize, design, code, and present.
- I developed systems and procedures that ensure a seamless project journey from start to finish. This encompasses identifying clients' needs and preferences, crafting clear and concise project briefs, and executing projects to those specifications in an organized and timely manner, for everyone on the team.
- Projects include, branding + logos, print + digital design, and websites from conception to launch.
